

Assessment Summary Worksheet

Activity 1: Conduct and write up a **systemic literature review** for the health effects identified in the scoping summary. Draft an **overview of the existing health conditions of the affected population** based on the topics identified in the scoping summary. This should include the status of health outcomes that could be affected, the status of the identified health determinants, and identification of populations that might be disproportionately affected.

Activity 2: Drafts of primary data collection materials.

A large, empty rectangular box with a thin black border, occupying most of the page below the title. It is intended for drafting primary data collection materials.

Activity 3: Results from primary data collection, including participant demographics and findings from surveys, focus groups, and/or key informant interviews with community members, and input from stakeholders and community members most directly affected by the decisions.

A large, empty rectangular box with a thin black border, occupying the lower two-thirds of the page. It is positioned directly below the text of Activity 3, suggesting it is a designated area for the results of the primary data collection.

Activity 4: Outline the **predictions** of the health and equity impacts of the decision for the topics identified in the scoping summary.

A large, empty rectangular box with a thin black border, intended for the user to write their response to the activity. The box is currently blank.

Activity 5: Description of the analytical methods and community/stakeholder engagement utilized during this phase of the HIA.

A large, empty rectangular box with a thin black border, intended for the user to provide a detailed description of the analytical methods and community/stakeholder engagement used during the HIA phase.

Activity 6: Summarize in writing the **findings** from the literature review, existing health conditions, data analysis, predictions, methods, and community engagement. This will be a synthesis of the information from activities 1-5 and the start of your HIA report.
